### REASONS FOR ALLOWANCE

1. Claims 1, 3-27, and 33-38 are allowed.
2. Claims 2 and 28-32 are cancelled.
3. The following is an examiner's statement of reasons for allowance:

The prior art of records fails to disclose or render an obviousness of an adder to sum two binary numbers comprising: a first circuit having a plurality of carry-merge stages connected in a series including a final, first, and second carry generators; a second circuit connected to the first circuit and having a plurality of stages and adapted to generate additional carries missing from the group of carries to provide one carry for every group as seen in independent claims 1, 3, 8, 22, and 33 wherein claim 33 is interpreted as a system claim having a processor comprising all hardware components in the body of claim.

The closest found prior art is Siers (U.S. 6,269,386). Siers discloses an adder to sum two binary numbers comprising a series of stages. However, Siers fails to disclose detail structure of each stages as described above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
